Preliminary Amendment

Dear Sir:

In the above referenced patent application, please consider the following
amendments and remarks.

In the Claims:

1. A communiqué wireless subscriber device for providing communiqué
communication services to subscribers, via a cellular communication network that
includes a plurality of cell sites, each of which provides a plurality of wireless
communication channels in a cell that covers a predetermined volume of space
around a cell site transmitting antenna, said cellular communication network
transmitting communiqués on at least one of said plurality of wireless communication
channels, said communiqué wireless subscriber device comprising:
means for communicating on a wireless basis with at least one of said plurality
of cell sites;

means for storing a communiqué identifier that is not unique to said
communiqué wireless subscriber device; and
